

BIOMETRIC DEVICES & RELATED HARDWARE

Kiosk Solutions is facilitating both public and private sector organizations to utilize this cutting edge verification technology and use it commercially with a view to bring transparency in the society. The purpose of this proposal is to create awareness among potential clients with regard to devices recommended to be used.

Hardware

- i. **Biometric Device:** Client can procure finger print digitizer (as approved by NADRA) to capture applicant/customers' finger prints. We can also manage devices with warranty and maintenance coverage.
- ii. **Tablets & Cell Phones:** Facilitate users in selection of appropriate devices compatible with NADRA system.

Maintenance & Warranty Support

- i. **Maintenance of Devices**
 - The devices delivered are covered under OEM warranty for Workmanship, Material and Labor for the period of ONE year.
 - Preview of maintenance covers malfunctioning, material's saturation or operational faults.
- ii. **Warranty Support**
 - Devices are covered under firm warranty for the period of ONE year.
 - Any physical damage, electric surge or abnormal use of device under rain, storm, open hazard environment, over voltage supply, in trouble areas, self-repair by the user, or anti-friendly users will not be covered or accepted for warranty claim.

Experience: *Kiosk Solutions* has the experience of deploying biometric solutions encompassing both hardware and software segments all over Pakistan and at geographically dispersed locations, involving supply & installation or maintenance support of biometric devices to Government/Semi Government/Autonomous or Private Organization of good repute.
